

## Copper Kettle Pursuit Race Results

Unfortunately due to a mistake by the Race Officer, there were 2 different sets of start times in existence. The correct list was the email. The lists being handed out by the committee boat were incorrect.

As a result of this error by the Race Committee, the following boats started at the wrong time.

Squibs (Koroo and Soojee) started at 18:34, 2 minutes late.

All XODs started at 18:36 - 3 minutes late

Forethought started at 18:36 - 1 minute late.

Mahjong started at 18:38 - 3 minutes late.

As none of the boats affected finished within 6 minutes of the eventual winner, I propose to let the result stand.

Anyone who is unhappy with this arrangement should contact the Race Office.

My apologies for the error, I was trying to print a more compace version of the start order than the original email, and printed the wrong file.
